

MODEL 20XPCT

50.8 CM Capacity Whole Tree Chipper

Bandit's 20XPCT drum-style whole tree chipper was specifically manufactured for the EU market, featuring a large 66.6 CM high x 62.2 CM wide throat opening and a Caterpillar 202 KW Tier 4 Final / Stage V engine.

COMPACT, YET POWERFUL.

- Easily processes large trees and limbs
- Large infeed and throat openings
- Heavy-duty construction for years of dependable service

LIMITED PREP

The Intimidator 20XPCT easily handles tops and forked limbs because of the chipper's large throat opening and Bandit's proven Slide Box Feed System. This system features a powerful top feed roller that is 81.28 cm wide by 40 cm in diameter, and a bottom feed wheel roller that is 81.28 cm wide by 27 cm in diameter. The feed rollers are positioned within inches of the chipping knives, effectively controlling even the wildest trees and branches. This reduces trimming time and labor costs while increasing production.

CRUSH/COMPRESS MATERIAL QUICKER

Limby whole trees are chipped quickly and efficiently by the Intimidator 20XPCT with virtually no prep work required. The wide chipper opening and sloped infeed system help to crush, compress and funnel limby whole trees into the feed system, making it easy to feed and process stubborn material that rival chippers struggle to handle. With a powerful CAT 202 kW engine, the Intimidator 20XPCT has plenty of power to tackle big projects.

OVER-THE-TOP DISCHARGE

Loading top open chip vans is enhanced with the over-the-top discharge. The 20XPCT is designed to throw chips up and out of the discharge with increased efficiency loading chip vans to their maximum capacity.

COMMITTED TO QUALITY & PRODUCTIVITY

Since 1983, Bandit has manufactured equipment for a multitude of wood waste processing markets. The vision since the beginning, is to build quality, highly productive, easy to maintain equipment providing years of dependable service.

The commitment for quality, innovation and dedication is instilled in every employee and is one of the main reasons why Bandit became an Employee-Owned Company (ESOP) in 2018. These core values ensure each Bandit machine will leave the factory ready to exceed your expectations.

WIRELESS RADIO REMOTE

The 20XPCT is standard with a user-friendly wireless radio remote controlling all track and chipper operation functions.

SIGNIFICANTLY LESS MAINTENANCE

The Intimidator 20XPCT has a heavy, reinforced drum with internal support. The drum, feed system and related Bandit components should last the lifetime of the chipper and are backed by a five-year GUTS warranty. Solid welded construction with heavy-duty materials throughout the Intimidator 20XPCT help ensure long life and trouble-free performance with less downtime for maintenance.

CONVEYOR

A fold down infeed conveyor is standard making the unit easier to load and feed. For easier transporting, the conveyor can be folded up for transport.

Bandit Offers a Complete Line of Tree Care Equipment:
