

Manufacturer: Terex
Type: Single Shaft Slow Speed Shredder
Model: TSS 390T
Year of Manufacture: 2020
Stock Number: 21003430
Serial Number: TRXSS390HDGL42824
Engine Number: 2364375/010618
Engine: 493JP DC13 Scania

Ideal for volume reduction, Ecotec's TSS 390T Portable Slow Speed Shredder has the ability to handle the toughest of materials including tree stumps and roots, green waste, C&D waste, waste wood, pallets and rail ties.

The 3m long shredding shaft is made from heavy duty steel with replaceable, bolt-on shredding teeth. Being hydrostatically driven, it offers the benefit of full speed, full torque reverse as well as protection against contaminants. Customisable shredding programs enable the operator to configure the machine to their specific requirements and offer improved shaft cleaning in difficult applications, reducing wrappage and optimising throughput.

Shredding takes place against a hydraulically adjustable counter comb allowing the product size to be tailored. This comb can be operated in either a fixed position, where product size is critical or in 'release mode' when the comb can open rapidly to allow large contaminants to pass without the need to stop shredding.

Designed to provide operators with unrivalled levels of service access, the shredding chamber has hydraulically operated doors on both sides allowing chamber maintenance to be carried out with ease. The TSS 390T offers quick and simple set-up and will be ready to shred in a matter of minutes. All conveyors are modular in design allowing each one to be removed independently reducing maintenance downtime.

Specifications	
Shaft Length	9' 10" / 3,000mm
Engine	Scania DC13 493HP
Weight	70,548lbs / 32,500kg
Dimensions	Length: 10,200mm, Height: 3,554mm, Width: 2,554mm
