About Us

Global Machinery Solutions has been providing high-quality machinery to the forestry, recycling, construction, aggregates and confidential shredding industries across the UK, Ireland and Europe for more than 20 years.

We work with some of the world's most respected brands and distribute only the highest performance and quality machines on the market.

We've grown to be one of the UK's most trusted and reliable distributors of specialist machinery - and our customers range from sole traders to major European infrastructure companies.

We provide an all-encompassing sales, maintenance, repairs and support service for every customer and are committed to delivering the best Global Machinery Solutions experience.

Nationwide coverage

Our Location

Our main depot is centrally located in Long Bennington, Nottinghamshire, which is just off the A1 and close to other major transport networks.

We have another site in Suffolk, where we also distribute machinery from – and carry out services and repairs. Having two bases means we're accessible from all corners of the UK and our engineers are never too far away to assist when needed.

Our Divisions

Brands We Work With

We are the only UK-approved distributor for a range of globally recognised brands, including Bandit, Shred-Tech, Jo Beau, Norwood, Frontier, Pezzolato and Anaconda. We are also an approved dealer for leading excavating and recycling machinery manufacturers SANY and Pronar.

We continue to work with all brands to make sure we only offer the highest spec machines on the market for all divisions.

FORESTRY

Woodchippers

We offer a broad range of powerful and professional woodchippers to ensure there's a machine for every need, no matter what scale.

- Sub 8 inch chippers
- Hand and crane fed chippers
- Whole tree chippers
- Biomass chippers

Bandit woodchippers are built for toughness, strength, and easy maintenance, making them the most reliable on the market.

They deliver exceptional pulling and compressing power, require minimal upkeep, and provide long-lasting durability for years of dependable performance.

Bandit offers a range of hand-fed and whole-tree woodchippers, including towed, truck-mounted, and self-propelled models.

Pezzolato woodchippers are high-performance forestry machines designed for efficient wood processing.

They offer drum chippers, shredders, and the powerful Allroad model, equipped with an 820hp VOLVO Penta engine, for large-scale chip production.

Pezzolato's machines are ideal for producing wood chips used in biomass plants, domestic boilers, and industrial applications, ensuring durability, reliability, and high output.

Service Excellence from Global Machinery Solutions

Efficient installation and training

We deliver and install machines and then train teams to equip them with all the skills and knowledge they need to operate them proficiently and safely.

Ongoing maintenance and service

Our support doesn't end there! We have a nationwide network of skilled engineers and expert support team who are on-hand to address queries and provide technical assistance at all times.

Nationwide engineering coverage

Our national network of skilled engineers ensures efficient, expert support wherever you are, giving you peace of mind and keeping your machinery performing at its best.

Comprehensive diagnostic repairs

Our engineers use Jaltest, a comprehensive diagnostic tool used to identify and troubleshoot issues. It provides detailed diagnostic information, helping engineers to pinpoint problems accurately and efficiently, ultimately leading to faster repairs and improved machinery performance.

Parts warehouse

Our Long Bennington depot is home to a large parts warehouse with more than £2m of parts in stock, meaning our engineers can repair machines even quicker. Plus, customers can buy parts online and either have them delivered or collect them from our trade counter. Any parts we don't have in stock can be sourced easily.

“

We're an important cog in the growing construction and recycling sectors so having the right equipment is extremely important. I am delighted how Global Machinery Solutions have helped us achieve this with our shredder and excavator - and grateful for their continued support.

Paul Boyle
Freedom Recycling

“

I know the team are always there to help if I need any help with my woodchipper, sawmill or excavator. They're a wonderful support and have provided me with the confidence, skills and machinery to run my self-sufficient farm.
